Subject: RE: COURTESY CALL

Hi

Thank you so much for the concern in actual fact I am doing real good. The plates are fine I usually use the top plate and the headaches have reduced tremendously.

The last time I used the plates was about three months back and through Gods grace the headaches have gone.

I once again thank the Headache Clinic team for the time you spent examining me. Today I have stopped taking the strong headache tablets I just take them when the headaches are very strong which is very rare.

Thank you once again and may you continue to help many more people.

Regards

Mrs. Andisiwe Dlamini
