Re: Attention to Zazi

Dear Doctors and the nursing staff

How are you doing? I hope you are doing fine and I would like to tell you that how you did a great job.

I was suffering from a tension headache for 19 years I did not know what to do, I used all sorts of tablets but they did not work until I saw how wonderful you cured my younger sister's son, Bonginkosi Waiza, in 2009. He spent five months in hospital but he still passed matric with good symbols. I decided to try your help with the help of mighty God, you performed a miracle. I suffered for 19 years without a cure but I came to your clinic and everything felt like a dream. I did not dream or think I will be cured but you did. Everybody is good in your clinic they know how to take care of a patient.

At the school where I work I am working they ask me what did I do because I no longer suffer from headaches. I recommend your clinic and tell anyone who suffers from a headache to try it. IF you can extend your clinic for getting rid of fat please let me know because I will be your first patient. And your rubbing ointment helps a lot with pain and I recommend it to those with pain.

With the greatest thanks

From a satisfied customer
