GEM HEALTH CARE WORKERS TRAINING cc

I must say I was very sceptical when I started treatment with the Headache Clinic.

For years I had been suffering from headaches; pounding headaches which would not go away no matter what I did. Six out of seven days of the week I had a headache. The quality of my life was deteriorating because there wasn't much I could do when I had a headache.

I visited the clinic on the 31<sup>st</sup> August 2010. After a very lengthy examination, I was given a PMA to wear, which I did religiously.

After only two weeks of regular use I can a big difference. I have had headaches for only two day in the past two weeks. I am ready to dispose of all my headache "drug" and live a quality life again with the PMA. How it works, I do not know, but it works.

Thank you Headache Clinic.
