To whom it may concern

First I send you all the thanks my heart may conceive or my pen express, for your many troubles and care taken for me. I will like to thank the team of specialists at ***The Headache Clinic***. May the good Lord be with you guys.

My name is Louisa, for the past three years I have been experiencing severe headache problems and went to different doctors and I tried treating them with pain killers. The situation did not get any better. I then started looking for a headache specialist on the internet. I found one (**The Headache Clinic**) and went on treatment program, and I was given the Posture Modifying Appliance (**PMA**) and ever since then my headaches are now very much improved.

Yours sincerely

Miss L.W Molise

(Student at University of Pretoria)
