To the headache clinic staff

My name is Margaret Ngwenya, I would like to thank the headache staff for helping me with my headaches.

I have been suffering with headache for a week and then I came to the headache clinic for help. I was very shocked because my headaches were gone in about a month. I would say that I did not believe that a small pkte could heal the pains that I was going through.

I started using the PMA early December 2009 its been a month without the the headache and thats amazing. thank you for introducing the non drug treatment

Kind Regards

Margaret N. Ngwenya
