Attention : Sister Phumzile,

I've been battling with headaches for many years while I was still young, I took lots of pills to such an extent that I could not take them anymore. I even considered to do a CAT scan thinking that there is something wrong in my brain. I came across with Headache Clinic while I was looking for a telephone number from the directory book. I set up an appointment, the doctors were lovely.

I started using the PMA in 2006 and weeks later the headache went down drastically. I did not suffer from severe headaches since then, and I thank the doctors and the staff members of the headache Clinic for their enthusiasm. I'm still using my PMA, I have normal headaches that do not last long though. The PMA is the best cure for headaches.

Your sincerely  
Nosi
