**Subject:** Thank you, you brilliant people!!

This email is long overdue as I haven't had a headache in almost 2 and a half months now. After battling for months with long continuous headaches.

I am sending this email not only to commend the greatly efficient service, from what looks like a very close-knit group of professionals, but also to encourage you that you go on with your research studies; as your methods of treating your patients are compelling. The headache clinic Johannesburg is a great team and truly know what it means to take care of their patients. It has been nothing short of a great experience from the moment I stepped into their building. Today I can boldly say I have completely gotten rid of all the headache issues I have ever had thanx to you guys!

Keep keeping on

Regards
