

To the headache clinic.

I started to get headaches in 2008 for about the whole year, then I heard of the headache clinic. I went for a week or so, they gave me a PM7a (Not pills). I don't drink pills nothing for headaches just the PM7a. PM7A cured my headaches. Thanks to it I don't have headaches anymore. Now I can write my matric with NO headaches bothering me. Thank you a lot.
Doctors & Nurses keep on helping others.
