Re: TESTIMONY ABOUT MY TREATMENT OF CHRONIC HEADACHES IN 'THE
HEADACHE CLINIC'

I want to express my gratitude and thanks for the care by the medical and paramedical staff of 'The Headache Clinic', for their approach in the treatment of my as a patient and for their hospitality during my stay.

I have to testify that I suffered almost two years from headache after being victim of physical aggression on my person in 2007 where I was suffering of it almost every day. After two months of using the intra-oral Posture Modifying Appliance (PMA) and three sessions of physiotherapy, I must say that I am surprised and satisfied about the results of my recovering for 90% from my chronic headache.

Thanks again from the bottom of my heart for your kind and unforgettable service and support. It was more that just a 'technical treatment'. I was approached as a person, which was part of the recovering from my constant problem of headache.

Kind regards

Mr. Rodrigue Sadiki, from the Democratic Republic of Congo
